

# Stralsund: maritime hanseatic city

Situated at the south coast of the Baltic Sea, the city of Stralsund is known as the "door step to the isle of Rügen" – Germany's biggest island. The medieval town developed to one of the most successful Hanseatic cities and was inscribed to the World Heritage List in 2002.

Stralsund's Brick Gothic churches, museums, marina and other sights as well as various events allure to visit Stralsund year round:

- **Seglarträff:** Sailing trips and ship visitations with traditional vessels from Germany and Sweden. Get to know the old craft of seamanship – donning and doffing lead, sail and navigate
- **Wallensteintage:** this historical spectacle reminds on the Thirty Years War and the beginning of political links to Sweden
- **Christmas market:** cozy atmosphere with traditional retailers, craftspeople and of course hot spiced wines

## Getting Here

View of the Baltic Sea-Exhibition with XXL-cloud of plankton

Visit the European Museum of the Year 2010 and experience a unique underwater journey through five large exhibitions and 50 aquaria devoted to the northern seas.

### The World Ocean – Diversity of Life in the Seas

Submerge under the water surface and discover the Water Planet Earth! The exhibition displays marine biodiversity and unusual sea dwellers such as siphonophores, deepsea anglerfish and horseshoe crabs.

**Hint:** Audio tours available in English

### Baltic Sea-Exhibition

Who is the biggest carnivore of the Baltic Sea and why do codfish grunt? Find out in Europe's largest Baltic Sea exhibition featuring detailed lifelike habitats and fascinating exhibits. See the ocean's tiniest organisms and witness oversized clouds of plankton floating above your head!

**Hint:** Take a photo break at our "Seal Table" for children

### Baltic Sea-Aquarium

Your underwater journey begins right in front of Stralsund harbour basin where eels, flounders and the common rudd meet. See pipefish and opossum shrimps hiding in the seagrass in column fish tanks. Even thornback rays and catsharks inhabit the Baltic Sea!

**Hint:** Get carried away in front of the herring pool

OZEANEUM's modern architecture

Time to play and relax at the Children's Sea exhibition

### Exploration & Utilization of the Seas

Learn more about ocean research, global warming and overfishing. This exhibit visualizes the dimension of modern fishing nets and answers questions about seafood consumption.

**Hint:** Don't forget to take a souvenir photo under the diving helmet

### North Sea-Aquarium

The aquarium tunnel takes you to the newly renovated „Open Atlantic“ tank. 2.6 million litres of water and a true-to-life model of a passenger cargo ship are habitat of sharks, rays and large schools of fish.

**Hint:** Show feedings on Mondays, Wednesdays and Fridays at 11:00am

### Children's Sea & Penguins

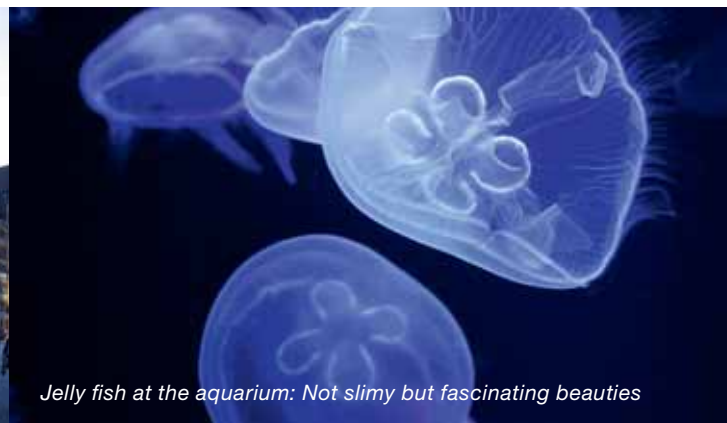

The activity for children sets a climbable lighthouse and offers a real beach-like feeling. The roof-top terrace is home of the Humboldt-penguins. Here the nimble swimmers can be observed while "flying" under water.

**Hint:** Watch the daily commented penguin-feeding at 12:00am

### 1:1 Giants of the Seas

Unique in the world! Breathtaking life-size models of whales and other giants of the sea float 20 metres high over your head, including a 26-metre-long blue whale, a humpback whale female and her calf.

**Hint:** Listen to the amazing sound of whales

Jelly fish at the aquarium: Not slimy but fascinating beauties

View from the 2018 newly renovated 2,6-million-litre-tank
